Hello Cheryl,

I'm delighted that Carrie will be able to attend the meeting and represent CLA-DAWG!
Carrie: thank you!

I'm attaching our official meeting announcement and latest draft agenda to this message. The announcement contains meeting details and logistics. Many of us are booked into the Marriott/Fairfield Inn & Suites. Please contact me or Chris Pappas (copied here) with any questions.

We look forward to a DAWG update - 20 minutes would be perfect, with about 10 additional minutes for Q&As. This would work nicely into our Day 2 (Wednesday) sessions, if that works for you. We would love to hear the latest update on the IESTI issue – the ramifications are huge and something that I know our group would be interested in hearing and discussing.

Also, PDP began sampling and testing honey April 1st. Hearing the industry viewpoint on honey testing would be helpful to our group – a summary of why it is so important to have the honey data (especially given the few current, existing tolerances) – perhaps to establish a general tolerance for unintended (inadvertent/unavoidable) residues, demonstrating the safety of honey in light of CCD, etc. – points of interest for CLA-DAWG.

Thank you all for your continued support of the program.

Best regards,
Diana

Hi Diana,

I am pleased to identify Carrie Fleming of Dow AgroSciences as the delegate from CLA DAWG to come speak at the PDP meeting in May. Carrie is located in Indianapolis and thus the travel to Reynoldsburg, Ohio should not be too difficult. She is the co-chair of the DAWG. And I'm connecting the two of you within the To: line of this email.

I assume she will be given about a 20 minute time slot? Please confirm and then let us know what information you would like from the DAWG. I have previously discussed the importance of the PDP for the Tiered dietary assessments for use with the OPP within the EPA. I believe Bruce Young discussed PDP in planned conjunction with the NG CARES project last year. For this year, we can give you a general message of support, or we could update you briefly on the CropLife International activities related to the discussion of the IESTI dietary equation used in EU and CODEX. Also Carrie is a toxicologist by training and has deep expertise in risk assessment so could customize her discussion to your needs.

Regards,

Cheryl Cleveland, Ph. D.

Hi Cheryl,

That's just fine. No hurry!

Thanks,
Diana

Hi Diana, thank you for the invite for DAWG. I will need a few days to confirm our DAWG representative for your agenda. I will try and let you know by next week, if that's OK.

Regards,

Subject: PDP Federal/State Meeting

Hello Janet,

I would like to cordially invite CropLife America and its constituents (DAWG, REWG) to attend the 2017 PDP Federal/State Meeting on May 2-4, 2017 in Reynoldsburg, Ohio. We would be delighted to have an update on current pesticide activities, if possible.

The meeting will be held on the campus of the Ohio Department of Agriculture Consumer Protection Laboratory. Attached is the formal meeting announcement with

additional information, and we will be sending out more details as the meeting approaches.

Thank you.

Best regards,
Diana
